

Important Information from Lansing Police Department

August 31, 2017

The Village of Lansing has experienced a rash of vehicle burglaries this past month. There is no set pattern, specific location in town, day of the week, or even a specific method of operation to warn about. They have been happening on all days of the week, all across town. Windows are being broken, door handles are being pried open, and mostly **unlocked** cars are being rifled through. The Lansing Police Department strenuously urges Lansing residents to **lock their cars** overnight and to take their valuables inside or place them out of sight. If you have any questions or see something suspicious, please call the LPD non-emergency number at 895-7150. Be vigilant and please take the necessary steps to discourage these criminal acts.
