

Installation Process

In order to complete the Water Meter Replacement Program as quickly as possible, the Village of Lansing will be contacting residents through direct mailings to schedule meter replacements with Calumet City Plumbing. Upon receiving the informational letter, **the resident must contact ME Simpson Company directly at (888) 252-1521** to coordinate an agreed upon date and time for installation of the new meters. Please note someone 18 years or older must be present during the installation, and please be sure that your water meter is accessible for the installer. All Calumet City Plumbing employees have passed a background check and will carry a photo identification card. Please do not admit anyone into your home or business without proper identification. If you are unsure about any suspicious activity, please do not hesitate to contact the Police Department at (708) 895-7150. The Village of Lansing appreciates your assistance with this program and thanks you in advance for your cooperation.
